Call for Student Assistants

The research project “The global development, diffusion and transformation of education systems” which is part of the DFG funded Collaborative Research Centre "Global Dynamics of Social Policy" (SFB 1342) is searching for the position of

student assistant (30h per month).

The recruitment is expected to take place on **01.10.2019** for a period of three months, possibly longer.

The main task is to support the data collection within the quantitative part of the project. Documents and country reports will be used to collect historical and up-to-date information on education systems in over 160 countries. Interest in, or even previous knowledge of, educational sociology or policy and globalisation is desirable, but not a prerequisite. The same applies to knowledge of quantitative methods.

We offer an insight into an interesting field of work and a friendly team. Salary is based on the usual rates for student assistants at the University of Bremen.

Your application should include a short curriculum vitae and your study focus or interests. A current excerpt of the transcripts of records should also be enclosed.

The closing date for applications is 30.08.2019. Applications should be made by e-mail, to be sent to
